AT-SEA SEAFOOD PROCESSORS NOW

American Seafoods hiring At-Sea Fish Processors

American Seafoods operates a fleet of six fishing vessels in the sustainable fisheries of the Bering Sea and the North Pacific Ocean. We are the world's largest at-sea processor of Wild Alaska Pollock and hold the largest allocation of Wild Pacific Hake (Whiting). Our quality-assured products are distributed around the globe.

Seafood processors work aboard at-sea processing vessels in the waters of the Pacific Ocean, Gulf of Alaska, Bering Sea, and the Aleutian Islands to convert raw fish products into a processed, high-quality product ready for sale. The work is strenuous and sometimes hazardous, with the vessel operating in all types of weather conditions.
